SBH SLIDE RAIL ROLLING STRUT SYSTEM

WIDEST WIDTHS • STRONGEST RAILS • LONGER PANELS • MAXIMUM CLEARANCES

Trench Shoring Company's SBH Slide Rail System replaces conventional sheeting systems. Fast and easier installation results in major savings.

Square or rectangular pit shoring can make any configuration possible, accommodating all linear pipeline and excavating applications. Our standard design features depths of up to 36'.

Trench Shoring Company is the authorized distributor for:
