# TRACKCLEAN®

## Shake, Flex & Roll! With TRACKCLEAN

Placed on haul roads just prior to entering paved streets, TRACKCLEAN's patented design dislodges dirt, mud, rocks and asphalt from the tire tread. TRACKCLEAN is a low cost, portable and maintenance-free vehicle tire cleaner that reduces tracking and broken windshields. Comply with South Coast Air Quality Management Rule #403 by placing a TRACKCLEAN unit at your jobsites. AQMD guidance strongly recommends implementation of preventive measures and has included TRACKCLEAN as a "best available control measure" for PM 10 in the south coast air basin.

TRACKCLEAN is the first proven device that addresses the tracking problems before your trucks leave the job site. TRACKCLEAN will greatly reduce sweeping and water truck times and sends a clear message to the public that you are doing your best to be a good neighbor contractor.
